

MEMORANDUM  
Department of Environmental Quality  
Waste Division  
Office of Remediation Programs

---

**Subject:** Voluntary Program Database – Third Quarter 2006

**Date:** November 2, 2006

**To:** DEQ Distribution

**From:** Ahmet Bulbulkaya

**Through:** Kevin Greene

---

This is the third quarterly report for 2006 summarizing sites in the Virginia Voluntary Remediation Program (VRP) database. This report includes updates to the database as of November 2, 2006.

### **Overview of VRP Database**

The VRP database contains a list of the sites in Virginia that have expressed an interest in enrolling in the VRP. These sites are at various phases of activity in the VRP process, and some are not yet formally enrolled in the program. A site is considered enrolled in the VRP after its eligibility has been confirmed and the registration fee has been paid as specified in the VRP Regulations. Before the regulations were promulgated in June 1997, a site was considered enrolled in the VRP after a Voluntary Remediation Agreement had been negotiated with DEQ. The VRP database includes the location, parties involved, types of contamination, and the stage of progress in the VRP process for each site.

The VRP database is maintained in Access, a database software package. The database is managed in two tables: one for active VRP sites and one for archived VRP sites. The “active” list includes potential candidates, sites enrolled in the program, and sites that have been issued a Certification of Satisfactory Completion of Remediation. Sites on the “archived” list are no longer tracked by VRP staff. Most of these sites were originally in the “remediation tracking system” prior to inception of the VRP in July 1995, but have not continued to express an interest in the VRP. Other sites on the “archived” list were once potential candidates for the VRP, and were included in the “active” list at that time. Because these sites were either deemed ineligible or ceased expressing an interest in the VRP, they were removed to the “archived” list.

### **Overview of Reports**

The attached reports are divided into two sections: Active VRP Sites and Archived VRP Sites. A single line format has been used to generate two reports for the active list and one for the archived list.

A summary of the status of the active VRP site list by DEQ region is presented below:

## SUMMARY OF ACTIVE VRP SITE FILE (As of November 2, 2006)

DEQ Region	Eligibility Pending	Eligibility Established (not yet enrolled)	Enrolled in Program* (Fee Paid)	NFA - Certificate Issued	TOTAL
Northern	5	8	45	37	95
Piedmont	2	1	16	19	38
South Central	1	1	7	7	16
Southwest	0	1	3	11	15
Tidewater	2	5	26	17	50
Valley	1	1	4	12	18
West Central	2	0	18	29	49
TOTAL	13	17	119	132	281

The following information is useful for interpreting the reports and the above table.

## VRP PROCEDURAL STEP

1. Participant submits request for eligibility determination
2. Site is assigned a VRP number
3. DEQ regional office and Office of Waste Permitting makes eligibility determination/DEQ requests registration fee
4. Participant submits registration fee
5. Participant submits Site Characterization
6. DEQ concurs with Site Characterization
7. Participant submits Remedial Action Plan
8. DEQ concurs with Remedial Action Plan
9. Participant submits Demonstration of Completion
10. DEQ concurs with Demonstration of Completion
11. DEQ issues Certification of Satisfactory Completion of Remediation

## VRP STATUS

[illegible]

The following reports present information from 8 of the 88 data fields maintained in the database for each site. To obtain additional information about a listed site, or an electronic copy of the database, contact Ahmet Bulbulkaya at (804) 698-4228. Comments on the format, content, or distribution schedule of this report are welcome.

\* Includes sites enrolled through both a VRP agreement and pursuant to the VRP regulations.
